

# Meet the Teacher

## THE BASICS:

Hi! My name is Donna Collins. I live here in Baton Rouge with my husband. I have two children, three grandchildren and a wonderful daughter-in-law. In 2011, I came to work here, at BRCVPA to teach second grade. At that time, I taught all the subjects. During my time here at BRCVPA, I also taught third grade, but my heart belonged to second grade, which I now teach. This year I will teach second grade Math and Science. BRCVPA is a great place to work. I have been here for 13 and I still love being here. Before coming to BRCVPA, I worked in the EBRPSS in various positions for over twenty years and in my opinion BRCVPA is the best place to work. I can't wait to see familiar faces, meet the new ones, and experience another year with our families, faculty, and students!

## MY CHILDHOOD:

I grew up in Port Hudson, Louisiana with four brothers and one sister. At the age of fourteen, my family moved to Baton Rouge where I met the love of my life. We lived next door to one another and spent countless hours playing my favorite video game, Ms. Pacman.

## EDUCATION:

After working full time as a clerk in the EBRPSS, and going to school part-time, I graduated from Southern University in December 2001. I taught second Grade Math, Science, SS and ELA. I also taught third Grade Math. Of all the subjects I taught, second grade math is my favorite. I am so excited to be teaching 2nd grade Math.
