

# Meet the Teacher

## THE BASICS:

Hello! My name is Jennifer Jarreau and I will be your 2nd grade math and science teacher this year. I am married to my husband, Kevin, of 20 years. We have two daughters, Gabby, an art major at LSU and Lily, an LSU law student. I love spending time with my family, whether just on our porch grilling, or travelling on vacations. I also enjoy working in my yard, gardening, and observing the life cycle in my butterfly garden. I like to practice yoga to stay healthy and to settle down with a good historical fiction book before bed.

## MY CHILDHOOD:

I grew up in Central City, Louisiana. My grandmother was my teacher in 4th grade and she has been a great inspiration to me. As a child, I was always playing "school." I also grew up loving the outdoors and playing in the woods behind our house. As I got older, I spent many summers with my aunt and uncle in Los Angeles where I loved exploring gardens and museums.

## EDUCATION:

I graduated from the University of Louisiana at Monroe with a Bachelor's degree in Elementary Education and I have had the pleasure of working at BRCVPA for 8 years. Additionally, I attended LSU for 4 years in the Landscape Architecture program but after moving to Oklahoma as a military wife, I received a degree in Horticulture from Oklahoma State University, hence my love of gardening!
